Description

The Latitude container is shown above in Sterling and is 24"x 24" square at the top and 32" high, the fiberglass liner has a 25 gallon capacity and comes standard with a rolled lip at the top and two handles. Suitable for a commercial environment it can handle the rigors of outdoor use, when ordered in our Fusion finishes you will have a long life cycle with scratch and graffiti resistance. The design is a simple geometric with a timeless incised design, perfect for any area that requires a large capacity such as roof tops, lobbies and pool decks. The Latitude can also be ordered as a planter by deleting the liner and top, contact us directly if you require a custom size that is not available as a standard, a mold fee and minimum quantity may apply. This design can also be special ordered as a trash/recycle with 2 liners (small upcharge applies for the second liner).
